MARINE PARK SOUTH CLASSIC

WWW.SEAWOLF-SAFARI.DE

To the southernmost islands of the Red Sea!

After arrival in Hurghada or Marsa Alam, transfer to the boat to Port Ghalib, dinner and departure the next morning.

Already in the afternoon it goes to the reefs of Zabargad and Rocky Island, the most southern islands in the Egyptian Red Sea. Countless soft and hard corals await the divers here in the Deep South.

Now it goes on to St. John's, a mixture of the best what the Red Sea offers. Colorful coral gardens with schools of fishes, breathtaking drop offs, reefs with caves, some wrecks and not to forget the spectacular night dives.

On the way back to the north we can visit the places of Sataya, Malahi, Abu Diab, Sha'ab Maksur, Sha'ab Claudia, Abu Galawa and Gota Sharm, so be assured of variety! Also here with great regularity can be shark encounters.

Before we return to the harbour in Port Ghalib, the Elphinstone Reef is another treat! The northern tip offers the best conditions to meet some hammerheads at an early morning dive.
