NORTH-WRECKS & BROTHER ISLANDS

WWW.SEAWOLF-SAFARI.DE

The most well-known wreck in the Red Sea!

This tour starts in Hurghada, and leads you first to the Brother Islands, and then to the famous wrecks in the Northern Red Sea (the order depends on the weather).

The fans of old sunken ships will get one's money worth on this live aboard. The "big brother" impresses with its steep faces and two wrecks – the Numidia and the Aida. The "little brother" stitches with its colorful hard and soft corals in many overhangs and schools of fishes.

Big fishes, such as fox sharks, hammer-head sharks, grey sharks or oceanic white

tip sharks promise you on both "brothers" exciting dives.

Then we continue to the North. In addition to the wrecks of Abu Nuhas (Carnatic, Chrisoula K, Ghiannis D.) of course the Thistlegorm is on the program. A relaxed last dive day you can spend for example at Sha'ab el Erg between the dolphins. On Wednesday afternoon the boat returns to our marina in Hurghada.
